

TotaLuxe™ | Veranda

Moher; Aluminium Veranda

Slim, elegant and very competitively priced

The Moher is number one when it comes to quality and price. This veranda is slimmer than our other models, offering excellent value for money. In the slimline veranda market the Moher is sturdier than what is usually expected. The in-between beams are fitted with aluminium covers instead of plastic top covers, which makes the covering very sturdy and robust. The Moher is characterised by a slim, elegant and timeless design.

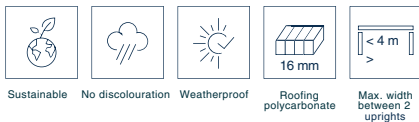

Moher

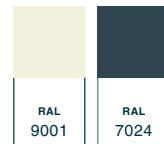

Enjoy special moments sheltered from the forces of the weather.

With the Moher from Totaluxe you will experience your garden as you would like to experience your garden. All this under a slim, elegant and timeless design.

This veranda is available in standard widths of 4, 5 or 6 meters. The roof is equipped with a polycarbonate roof; high-quality and durable material with a timeless appearance.

Sustainable No discolouration Weatherproof Roofing polycarbonate 16 mm Max. width between 2 uprights
